

Uyen Doan

PHD CANDIDATE · COGNITIVE SCIENCE

✉ uyen.doan@unimelb.edu.au | 🏠 udoan.github.io

Education

Ph.D. in Cognitive Science

UNIVERSITY OF MELBOURNE

2023 - present

Melbourne, Australia

- **Thesis:** Integrating Clinical and Computational Associations of Autobiographical Memory Specificity
- **Supervisors:** Prof Andrew Perfors, Dr Abi Brooker

B.A (Hons) in Psychology

UNIVERSITY OF MELBOURNE

2019 - 2022

Melbourne, Australia

- Research topics: Linguistic variation, individual differences in perception
- Elective coursework focus: Linguistic Studies, Human Geography, & Anthropology
- Summer Exchange in 2019 to Korea University, South Korea

Selected Publications

PUBLISHED

Doan, U, Hong, D, Mares, L, Butler, M, Askelund, AD, Gutenbrunner, C, ... & Hitchcock, C (2025). The predictive power of autobiographical memory in shaping the mental health of young people: An individual participant data meta-analysis. *Psychological Bulletin*, 151(4), 455.

Doan, U, Hong, D, & Hitchcock, C (2025). Please, just talk to me: self-disclosure mediates the effect of autobiographical memory specificity on adolescent self-harm and depressive symptoms in a UK population-based study. *Journal of Affective Disorders*, 376, 10-17.

IN REVIEW

Haylock, P, **Doan, U**, Lee, H, Hong, D, Phillips, L, & Hitchcock, C. Dynamic, interactive change in autobiographical memory, cognition, and depression in young adults: A longitudinal cohort study

Smith, A, Kirkpatrick, A, **Doan, U**, & Hitchcock, C. Autobiographical memory retrieval is a risk factor for psychotic experiences: a longitudinal cohort study of British youth.

IN PREP

Doan, U, Haylock, P, Brooker, A, Perfors, A, & Hitchcock, C. Longitudinal association of autobiographical memory specificity and overgeneral negative schema in a community sample of young people.

Doan, U, Goodwin, I, Brooker, A, Hitchcock, C, Knolle, F, & Perfors, A. Disentangling the role of semantic priors and sensory details in autobiographical memory retrieval.

Presentations

INVITED TALKS

June 2025. *Understanding autobiographical memory specificity as a risk factor for psychiatric disorders through clinical and cognitive theories*. Presented at Avital Hahamy Lab, University College London, UK.

June 2025. *Autobiographical memory specificity and negative schema*. Presented at Tim Dalgleish Lab, University of Cambridge, UK.

CONFERENCE TALKS

July 2026. Disentangling the role of semantic priors and sensory details in autobiographical memory retrieval. *Australasian Experimental Psychology*, Auckland, New Zealand.

June 2025. Autobiographical memory specificity and negative schema. *Society of Applied Research on Memory and Cognition*, Kildare, Ireland.

October 2024. The Predictive Relationship Between Autobiographical Memory Specificity and Onset of Psychiatric Disorders in Young People – An Individual Participant Data Meta-Analysis. *Australian Association for Cognitive and Behavioural Therapy*, Brisbane, Australia.

Award & Scholarship _____

- 2026 **Student Travel Award**, Australasian Experimental Psychology
- 2025 **Postgraduate Research Excellence Award**, Melbourne School of Psychological Sciences
 Career Development Award, Melbourne School of Psychological Sciences
 Student Travel Award, Society for Applied Research on Memory and Cognition
- 2023 **Machine Learning School Scholarship**, Orygen Research Australia

Teaching Experience _____

- | | | |
|-----------|--|----------|
| 2025-2026 | Research Methods for Human Inquiry , Academic Tutor | 3rd year |
| 2025 | Capstone: Theory and Practice , Seminar Leader | 3rd year |
| 2024 | Cognitive Psychology , Academic Tutor | 2nd year |
| 2022-2024 | Developmental Psychology , Academic Tutor | 2nd year |
| 2022-2023 | Mind, Brain, and Behaviour 2 , Academic Tutor | 1st year |

Research, Service, & Professional Experience _____

- 2026 **Editorial Assistant**, Psychological Science, Association for Psychological Science
- 2023-2025 **Research Assistant**, Brain and Mental Health Research Hub, University of Melbourne
- 2024 **Coordination Assistant**, Melbourne School of Psychological Sciences
- 2022 **Teaching Technical Support**, Melbourne School of Psychological Sciences
- 2022 **Academic Support Worker**, Student Equity and Disability Services, University of Melbourne

Skills _____

Languages: Vietnamese, English.

Programming languages: R, Python, JavaScript, Stan, LaTeX.

Cognitive Modelling: Bayesian models of cognition, classical reinforcement learning models.

Statistical Modelling: Linear and non-linear models, multilevel and multivariate analysis, non-parametric approaches, multiple imputation by chained equations, structural equation modelling.
